Inflammable Gas Detector with Heat Sensor
ZA01B/C/D

ZA01B/C/D
Wireless Inflammable Gas Detector

ZA01 series can detect the concentration of the gas in the air and when it reaches the preset value, the detector will send out alarm . Still, the detectors are equipped with temperature sensor for detecting the temperature in the area. When the heat exceeds 60℃, it will send out alarm messages to the enrolled CIE device.

Detection Type

ZA01B
Gas Detector (Methane)
ZA01C
CO Detector
ZA01D
Liquid Petroleum Gas Detector
(Propane, butane etc)

Technical Parameter

Power Supply:	85~264VAC
Frequency:	2.405-2.480 GHz
Operating Ambient:	Temperature -10~60℃
	Humidity max. 95%RH
Communication Range:	Up to 50 meters indoor
Status Display:	LED
Consumption:	@receiving mode 85mA/45mA
	@transmitting mode 85mA/45mA
Siren Volume:	85dB at 1 meter
Product Dimension:	92mm (Dia.) x 50mm (H)

Main Features

- ZigBee device type：IAS Zone
- Equipped router with temperature sensor
- Match up with CIE alarm device
- Wireless switch on/off alarm sound
- Exquisite
- Compatible with ZigBee HA profile
- LED will flash when it is triggered
- When it is triggered, the enrolled ZA10 gas keeper will close the gas valve automatically.
- Detection type：
    ZA01B:natural gas (Methane)
    ZA01C:CO
    ZA01D:liquid petroleum gas
        Applicable with
- (optional) works with Z-A10 Gas Keeper
